Operations

Serres Suction system covers the broadest range of medical suction applications. The system can be supplemented at anytime to meet your changing needs. Our products are easy to use and manufactured to the highest quality standards.

Serres is a family-owned Finnish company. Our mission is to help healthcare professionals succeed in their daily work. We build trust into our equipment, so patients can trust you to provide the best possible care.

Serres Suction system in brief

You can find the main features and benefits of Serres Suction system from the pictures below.
For more information, visit www.serres.fi.

Disposable Suction bags

1. Hydrophobic filter acts as a combined bacterial filter and overflow protection. The filter closes suction automatically when it comes in contact with fluids.
2. Serial port allows you to expand the suction capacity up to 36 litres, the largest volume available in the market.
3. Bags folded with tapes make installing fast and easy.
4. The solidifier packed in soluble pouches is pre-inserted into bag, so you can begin the operation immediately.

5. Measuring cup attachment point. All special products and accessories are always compatible with other Serres products and calibrated to function together.
6. Grab the handle and remove the bag easily after use without breaking your fingernails.
7. Patented Single Connection™ ensures error-free installation. Just connect the patient tube and the system is ready for use.
8. After plugging all caps stay firmly closed and keep the bag completely sealed even if it is accidentally dropped on the floor.

Reusable Suction canisters

1. The vacuum source is connected to the angle connector of the canister. Once installed, there is no need to touch the vacuum tube or the connector between operations.
2. Canister can be installed in a variety of different holders. The canisters are transparent, though blue colored models are available for sensitive circumstances.
3. Wide measuring scale is easy to read from all directions.
4. Robust structure and resistant material allow for effective cleaning, including autoclaving.
5. The 2000 ml and 3000 ml canisters are round. 1000 ml canisters are oval-shaped and fit even in the smallest space.

Disposable Suction bags

Disposable Serres Suction bags are designed to provide the highest performance and ease of use. Suction bags available in 1000 ml, 2000 ml and 3000 ml are made of thin yet strong polyethylene film, making the system the safest and most hygienic suction solution in the market. Each Serres Suction bag incorporates a patented Single Connection™ system that makes misconnection virtually impossible. The error-free connection is easy to learn and fast to use, helping staff to avoid dangerous situations effectively. All Serres Suction bags are equipped with hydrophobic filters that serve as a combined bacterial filter and overflow protection.

Suction bags, standard

The basic suction bag for general use.

Product no.	Product name	Packing size	Angle connector Ø mm
57156	Suction bag, 1000 ml	36	6
57157	Suction bag, 1000 ml	36	7.2
57166	Suction bag, 2000 ml	24	6
57167	Suction bag, 2000 ml	24	7.2
57186	Suction bag, 3000 ml	24	6
57187	Suction bag, 3000 ml	24	7.2

Suction bags, folded

Folded bags are wrapped up and taped, making installation easier and faster.

Product no.	Product name	Packing size	Angle connector Ø mm
57167-0	Suction bag, folded, 2000 ml	24	7.2
57187-0	Suction bag, folded, 3000 ml	24	7.2

Suction bags with backflow valve

Improved hygiene as the bags are equipped with a backflow valve that prevents liquid spillage from the patient port before it is plugged.

Product no.	Product name	Packing size	Angle connector Ø mm
57157-3	Suction bag, backflow valve, 1000 ml	36	7.2
57167-3	Suction bag, backflow valve, 2000 ml	24	7.2
57187-3	Suction bag, backflow valve, 3000 ml	24	7.2

Suction bags, single packed

Single packed bags are sealed from dust during storage and are the ideal solution if the consumption of bags is minimal.

Product no.	Product name	Packing size	Angle connector Ø mm
57157-2	Suction bag, single packed, 1000 ml	90	7.2
57167-2	Suction bag, single packed, 2000 ml	90	7.2
57187-2	Suction bag, single packed, 3000 ml	90	7.2

Suction bags, sterile

Sterile products are available when absolute hygiene is crucial for patient safety.

Product no.	Product name	Packing size	Angle connector Ø mm
57157-1	Suction bag, sterile, 1000 ml	40	7.2
57167-1	Suction bag, sterile, 2000 ml	30	7.2
57187-1	Suction bag, sterile, 3000 ml	30	7.2

Solidifying agent

Serres Pre-gelled bags contain a solidifying agent which ensure easier and safer handling of liquids. Starting an operation is fast and convenient as the solidifier is already inserted into the bags and packed in soluble pouches. In addition, extra solidifier, which is sold separately, can be added into the bag if desired.

Pre-gelled suction bags

Pre-gelled bags include ready inserted solidifier packed in soluble pouches.

Product no.	Product name	Packing size	Angle connector Ø mm
57556	Pre-gelled bag, 1000 ml	32	6
57557	Pre-gelled bag, 1000 ml	32	7.2
57566-0	Pre-gelled bag, folded, 2000 ml	22	6
57567-0	Pre-gelled bag, folded, 2000 ml	22	7.2
57587-0	Pre-gelled bag, folded, 3000 ml	20	7.2

Solidifying agent

Extra solidifier is available in separate pouches or in 2kg tub. Solidifier can be added into the suction bag through a serial port.

Product no.	Product name	Packing size
57550	Solidifying agent, 25 g	24/288 *
57553	Solidifying agent tub, 2 kg	1

* Pouches are packed in plastic bag of 24 pcs. The total number of pouches in a storage box is 288 pcs.

* The amount of suction bags in a standard ward box.

** Products are not packed in ward boxes but in larger storage box.

Suction canisters

Reusable Serres canister have to be changed hardly ever and are extremely durable. Serres Suction canisters are certified as measuring devices with an accuracy of +/- 100 ml. Canisters are equipped with built-in brackets for mounting on walls, rail supports or trolleys. Canisters include reusable angle connectors for vacuum tubing. The compact oval-shaped 1000 ml canisters are ideal for tight places in ambulances, intensive care units and anaesthesia work stations.

Suction canisters, transparent

Transparent canister with wide scale allow for a clear view of suctioned liquid.

Product no.	Product name	Packing size
57308	Suction canister, 1000 ml	45
57328	Suction canister, 2000 ml	24
57348	Suction canister, 3000 ml	16

Suction canisters, blue

Blue canisters are designed for sensitive circumstances to ensure comfort of patients and families.

Product no.	Product name	Packing size
57309	Suction canister blue, 1000 ml	45
57329	Suction canister blue, 2000 ml	24

Flushing canister

In intermittent use suction tube can be cleaned and maintained operational by suctioning small amount of water from Flushing canister.

Product no.	Product name	Packing size
57319	Flushing canister, white, 1000 ml	45

57958

57959

Valves and connectors for Serres canisters

- On-off valve can be used to open and close suction. It replaces the grey angle connector.
- Serres valve is used to open and close suction when the smoke filter is used.
- T-connector is used in serial connections and can replace the Serres valve when the smoke filter is used
- The reusable Angle connector is available as a spare part if it is disposed of accidentally.

57610

57618

Product no.	Product name	Packing size
57958	Serres valve	10
57959	On-Off valve	10
57610	T-connector	100
57618	Angle connector	20

Serial connection

Serres Suction bags are easily connected in a serial chain for maximum suction capacity. A disposable Serial tubing with a wide-angle connector is installed between the suction bags. Reusable silicone Vacuum tubing connects canisters to the vacuum source. All Serres Suction bags can be used either in single or serial connection use.

57918

57908

Product no.	Product name	Packing size	Reusable
57918	Serial tubing	25	no
57908	Vacuum tubing, silicone	10	yes
57899	Vacuum tube roll, 5m, silicone	10	yes

In serial connection you can connect up to 6 canisters into one chain. If a Vacuum shift is used to connect two chains, the maximum collection capacity is 36 litres in one trolley. When using Serres Suction bags in series, the liquid flows into the first bag. When it becomes full, the liquid automatically starts to flow into the next bag through the Serial tube without any user intervention. When the last bag in the chain is full or when the procedure is completed, the bags are plugged and disposed of just like in normal use.

* The grey angle connector is reusable.

Special products for Serres Suction system

All accessories are compatible with Serres Suction bags and are easy and fast to connect.

- Specimen set is designed for tissue collection.
- Measuring cup for accurate measuring of small liquid volumes.
- Splash-vac is ideal for removing large amount of liquids from the floor conveniently.
- Bacterial filter can be connected between suction canister and suction pump.
- Smoke filter prevents premature filter blockage by smoke.

Product no.	Product name	Packing size
57247	Specimen set 300 ml - Ø 7,2*	18
57242	Specimen set 300 ml, without angle connector	18
57257	Measuring cup 250 ml - Ø 7,2*	12
57256	Measuring cup 250 ml - Ø 6,0*	12
57270	Splash-vac + 3 m suction tubing	25
57702	Bacterial/Viral filter	10
57710	Smoke filter	10

* Diameter of angle connector.

Special connectors

Twin connector is designed to replace the suction bag's patient connector if simultaneous suction from two sites is needed. Straight connector is used as a replacement for the patient connector if a larger suction tube is used.

Product no.	Product name	Packing size
57620	Twin connector	20/100
57621	Straight connector	20/500

Accessories for Serres Suction system

Serres Suction system includes a wide range of accessories. All accessories are designed with practicality, functionality and ease of use in mind.

Brackets

Serres brackets are designed to hold Suction canisters in all possible situations: wall, rail, table and bed. Rail bracket with quick connection can be installed without any tools. Plastic brackets can be washed in a washing machine even at 85°C.

Product no.	Product name	Packing size	Material
57815	Rail bracket	25	plastic
57818	Rail bracket	1/25	aluminium
57820	Wall bracket	50	plastic
57817	Wall bracket	1/25	aluminium
57825	Table bracket	1/10	aluminium
57830	Bed bracket	1/10	aluminium / stainless steel
57835	Table stand, 1000 ml	10	aluminium / stainless steel
57836	Table stand, 2000 ml	10	aluminium / stainless steel

Adapters

Serres Canisters can be installed with adapters to most of 3rd-party wall brackets. Adapters are ideal for hospitals that want to avoid extra mounting work.

Product no.	Product name	Packing size
57821	D-adapter	50
57822	C-adapter	50
57823	A-adapter	50
57824	V-adapter	50
57826	J-adapter	50

Other holders

Catheter holder is the most convenient container for storing catheters where they are needed. Tube holder keeps the suction tube always within reach and ready for use.

Product no.	Product name	Packing size
57831	Catheter holder	1
57833	Tube holder	10
